We will take a boat there to see whirlpools. Naruto City is famous for its whirlpools, and we will walk to the suspension bridge between Naruto City and Awaji Island to see the whirlpools from above.

(Thai language available)

This place may not be good for those who are scared of high places. So, if someone shouldn't want to walk underneath the bridge, they would have to wait at the gate for other people to come back.

Leaving Naruto, we will go to "ENGLAND HILL" in the middle of Awaji Island. All of us will spend one or two hours there, eating lunch.
