Find the Keywords (Genius p.12 part 1)

I want to talk to you about my village today. I like it here very much because there are beautiful trees, flowers, animals and people. There are only 100 people living in my village. However, it is sometimes difficult for us to understand each other because we speak different languages. We also have different customs and values. I believe it is necessary to try to communicate and get along with one another.
